energy is yours

The sonnen App and Portal

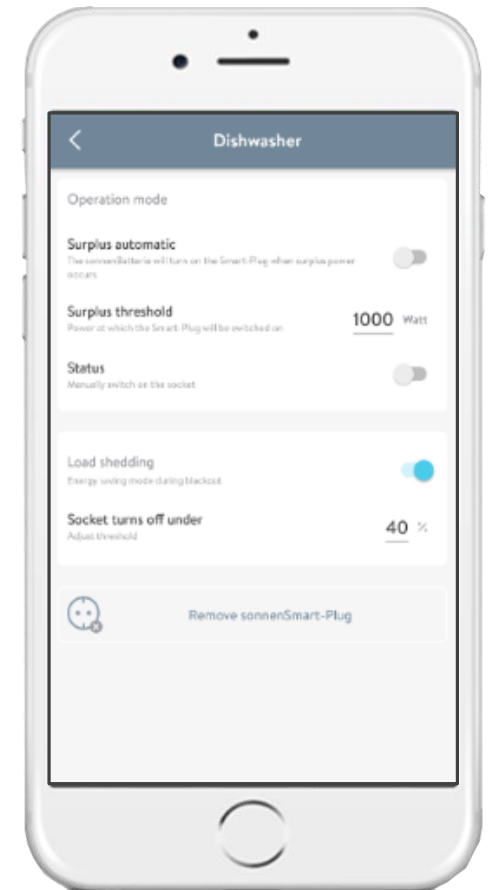

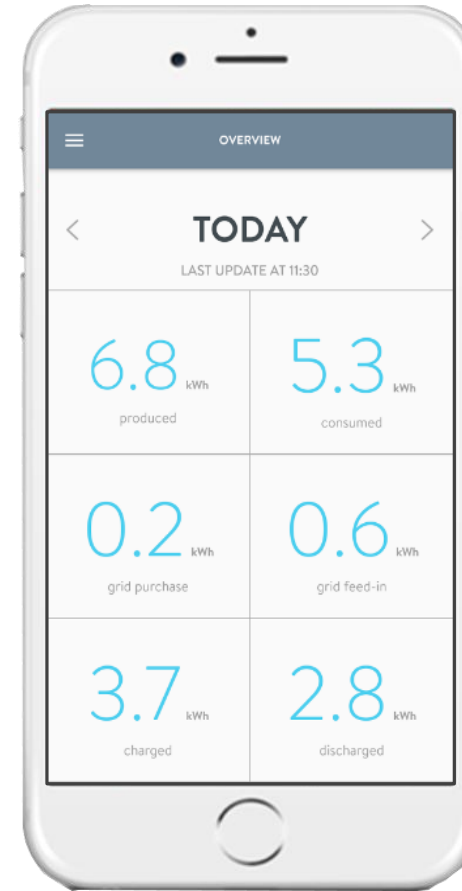

The sonnen App. *Simply Intelligent.*

The sonnen system includes a self learning algorithm that analyses your usage patterns and external factors such as weather predictions to manage your load more efficiently.

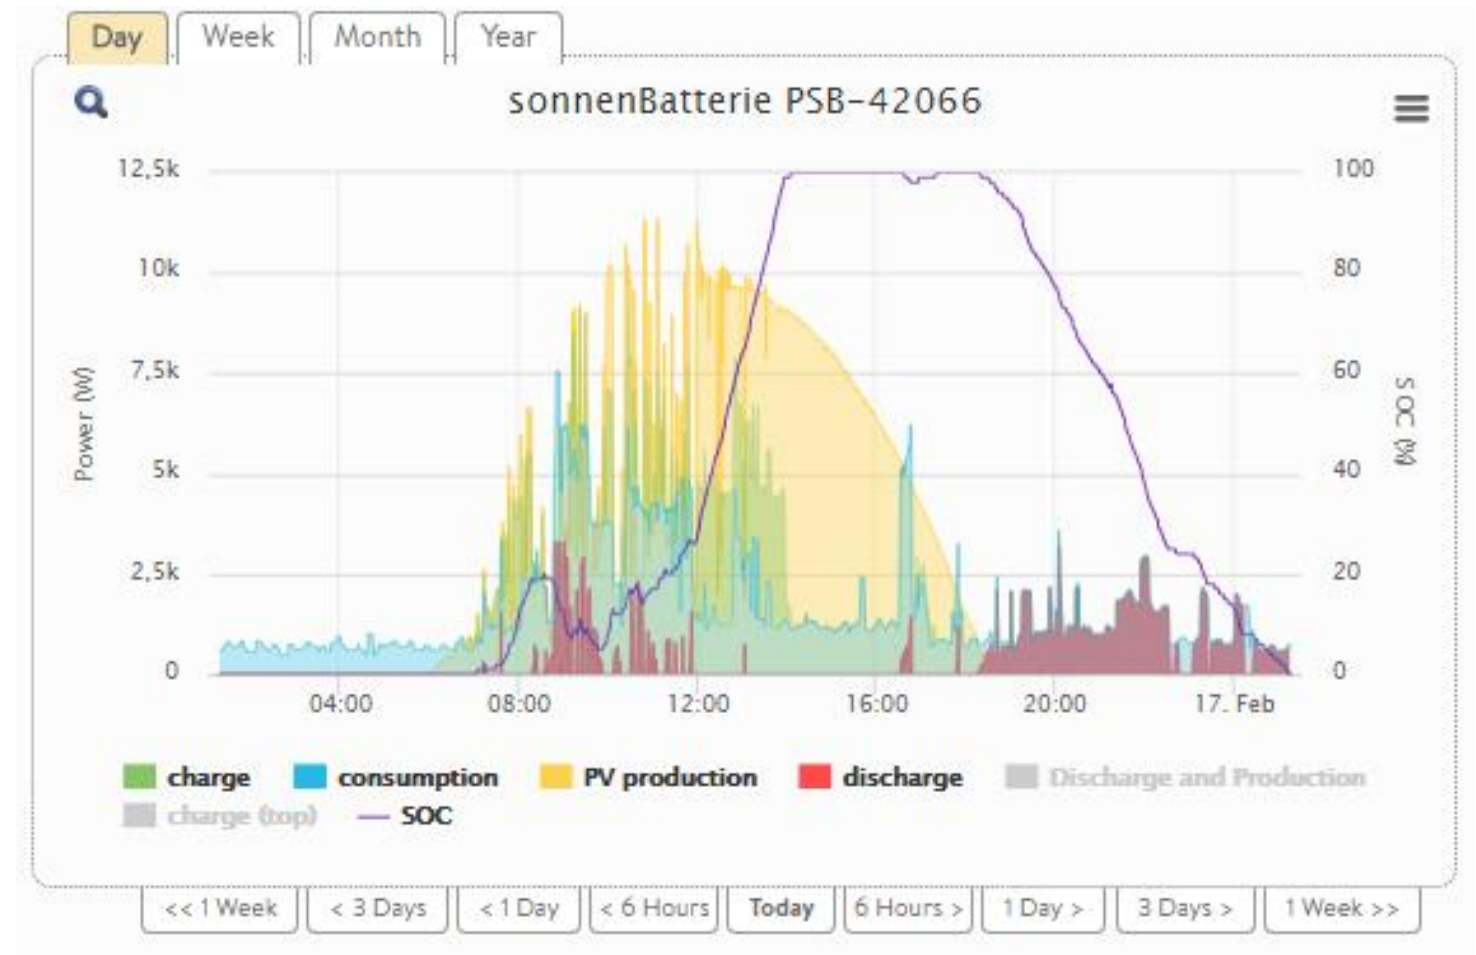

sonnenApp. What you will see.

- Monitor your energy consumption and the charge-discharge behaviour of the battery
- SMART Home Capability: If Z-Wave sockets have been installed, the Smart Plugs screen allows the user to observe the appliances consumption as well as adjust the parameters and sockets in use.

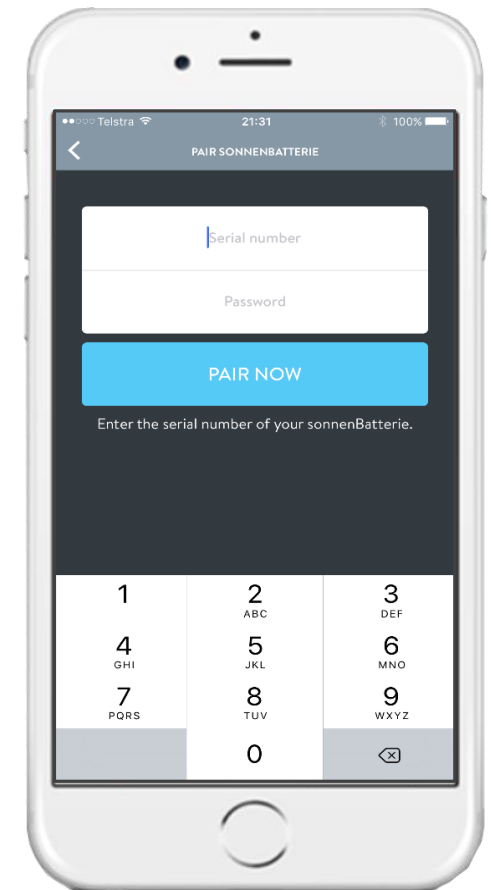

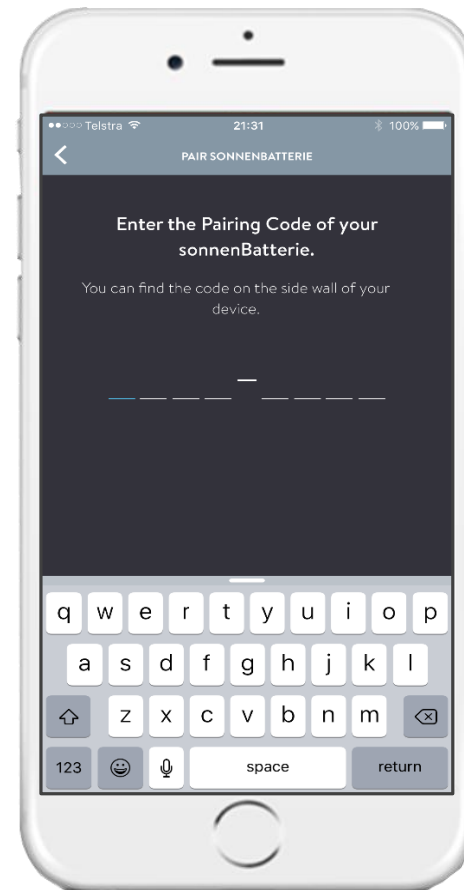

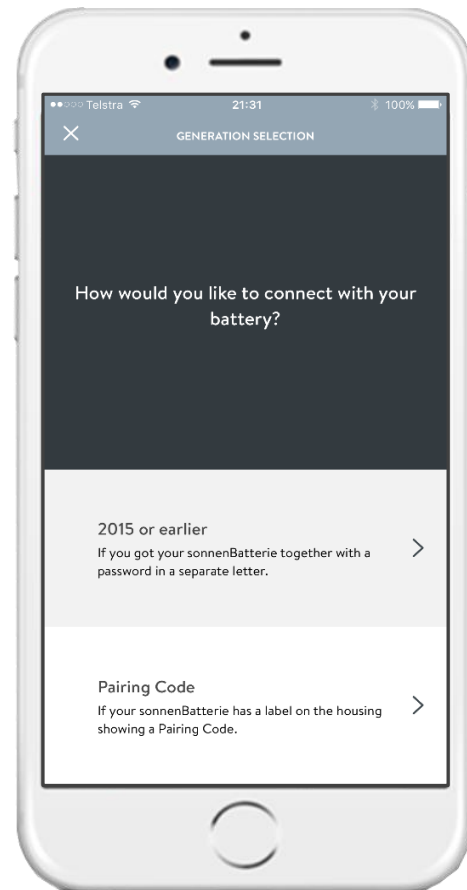

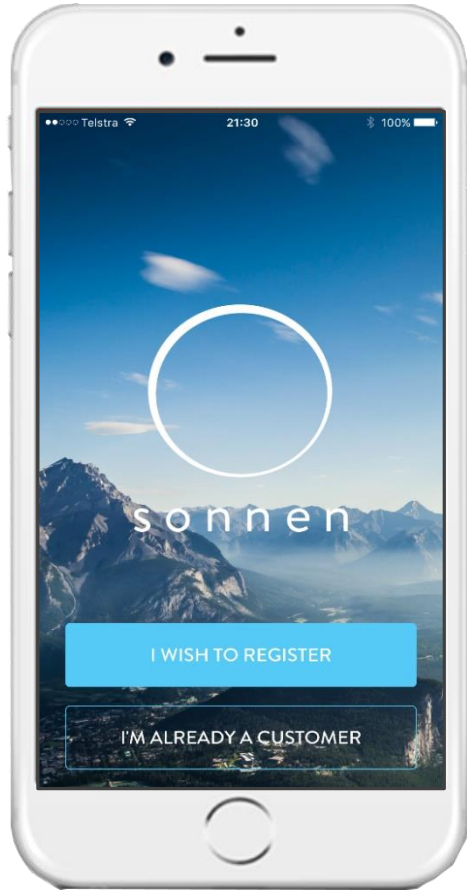

sonnen. Desktop portal.

- You can also view your usage through the sonnen desktop portal.
- Understand your energy and batterie patterns by viewing your own daily, weekly, monthly and yearly usage.
- Log in via: <https://my.sonnen-batterie.com>

*Available in Demonstration Mode (log in and password = demo)

The sonnen App. How to Register.

*Demonstration Mode Available
